Subject: NKU Student Emergency Fund Update

To: Dean of Students <deanofstudents@nku.edu>

Emergency Fund Applicant—

Your application is still being considered, and I wanted to inform you that the criteria for eligibility and how the any award you may receive have been changed.

First, eligibility requirements are now as follows: *To be considered for emergency funding, applicants must be enrolled at least ½ time during the semester in which they apply (undergraduate, graduate), be in good academic standing, have no outstanding NKU balance(s), have availability for additional financial aid, and should share information about financial hardship related to the disruption of your NKU education (including an itemized list of costs you plan to cover, including documentation to support your request).*

Any funding you're awarded will count as a form of institutional financial aid and will be processed through the Office of Financial Assistance and Student Account Services. This may impact your aid package and reduce your available aid.

For you (and for this group alone) since you applied prior to this shift, any awarded funds will be dispersed to you without being applied to any NKU balance you may have. If you would like to withdraw your application or have questions about this email, please call 859-572-5147.

Bob Alston, Ed.D.
